

Prompt repair maps to judge explanations

The repair adds ratios, recent news, current price data, risks, and explicit buy/sell/hold recommendation.

Improved research prompt + improved writing prompt

```
Commands  Code  Text  Run all

[ ] 1 IMPROVED_RESEARCH_PROMPT = """Research {tickers}. Focus on: {focus}.
    Use web search to find current financial data, news, and trends.

    You MUST include:
    - Specific financial ratios (P/E, P/B, debt-to-equity, ROE)
    - News from the last 6 months
    - Current stock price or recent performance data
    - Competitive context and market positioning"""

    IMPROVED_WRITE_PROMPT = """Now write a concise financial report based on your research above.

    The report MUST be actionable. Specifically:
    - Include explicit buy/sell/hold recommendations with supporting reasoning
    - Identify concrete risks with supporting data
    - Include forward-looking analysis, not just historical data
    - Provide context for WHY each recommendation is made
    - If there are multiple tickers, include a dedicated comparison section"""
